

COMMUNIQUE ON THE JANUARY 2022 SCHEDULE OF FULL RESUMPTION FOR NEW AND RETURNING STUDENTS

December 15, 2021

Our esteemed students and parents,

The President/Vice Chancellor on behalf of the Council and Senate extends his season's greetings to you. He assures all students of a most exciting and rewarding experience on campus.

ARRIVAL OF STUDENTS

Below is the resumption schedule of students.

Students must adhere strictly to this resumption schedule. No student who arrives on a date and time different from his/her stipulated date and time of arrival as shown in the schedule below will be accepted on campus. It is important that you strictly follow this schedule. Also, since this is full resumption of all students for on-site learning, without on-line study, you are advised to prepare adequately before arriving on campus. This is to avoid any travels with the attendant risk of contacting the COVID-19 virus.

SCHEDULE OF ARRIVAL

Batch A

All 300L Students, all 400L Students, Foundation Students, all Clinical Medical Science Students, and all Graduating Students:

Wednesday, January 5, 2022

- A. School of Computing and Engineering Science
- B. School of Education and Humanities

Thursday, January 20, 2022

8am-5pm

- A. Veronica Adeleke School of Social Sciences

Friday, January 21, 2022

8am-5pm

- A. School of Law and Security Studies
- B. School of Management Sciences

COVID-19 AND SAFETY OF LIVES ON CAMPUS

The University administration is committed to the safety of lives and wellbeing of her students while on campus.

Rapid Antigen Testing

Mindful of the serious threat to human lives by COVID-19, especially with the discovery globally of the highly transmissible Delta variant, and the new OMICRON variant of the virus which is highly transmissible, all students will be required to undergo the Rapid Antigen test at a cost of ₦10,000 (Ten Thousand Naira only) to the student. Evidence of payment for the test will be required on resumption at the University Amphitheatre, venue for the testing. The student will wait for about 20 minutes for the result. If the test result of the student is negative, the student proceeds straight to the hall of residence. Students that test positive with the rapid antigen test will be offered isolation until they test negative or can be taken home by their parents.

IN ADDITION, All 100 Level and 200 Level direct entry students will be required to undergo full medical examination including psychosocial screening. As part of the medical examination package, all new students will be offered Tetanus, Diphtheria and Pertussis vaccines– Tdap, (optional) at no cost to the students.

However, at the discretion of parents/guardians, Human papilloma virus (HPV) vaccine is available for female students at ₦30,575 (Thirty Thousand, Five Hundred and Seventy-Five Naira only) for 3 doses for the prevention of cervical cancer.

ALL staff and students (18 years and above) are encouraged to use the opportunity of the yuletide holidays to get vaccinated against COVID-19 infection. There are several vaccination centres across the country. A minimum of 2 doses is required. However, for those who are unable to get the 2nd dose before resumption, this can be obtained on campus.

Acceptable modes of Payment for the COVID-19 screening are as follow:

1. Bank Draft issued in favor of **Babcock University Teaching Hospital** to be presented on arrival.
2. A direct fund transfer to Babcock University Teaching Hospital account with:
Bank: **UBA**. Account number: **1019218642**

Every student who pays by direct transfer should print out the transfer document (debit advice or pay-in-slip) and submit it at the University Bursary on arrival. Student's full name and Matriculation Number or Application ID as the case may be should be boldly written on the reverse side of the transfer document and submitted to the Bursary staff who will issue an interim manual receipt until payment is confirmed in the bank statement.

NOTE:

- All **Returning** students are to present their Course Registration Form upon arrival as proof of their registration for the semester.
- All **New** students are to present their JAMB Admission Letter to their respective School Officer upon arrival.
- All students must come with their COVID-19 safety kits on resumption.
- Students who can afford it may come with their infrared thermometer.
- Only students with proof of payment of school fees, or sufficient balance in their student accounts will be allowed on campus.
- While on campus, students are required to comply stringently with the COVID-19 health safety protocols as approved by the Federal Ministry of Health.

ALSO NOTE: That the full information of the University's academic calendar is on our official website www.babcock.edu.ng

AGAIN: All students should ensure comprehensive preparation before leaving their homes for resumption. They should come with sufficient personal items that can last them full Semester (4 months).

The schedule of school fees will also be on the website - <https://www.babcock.edu.ng/finance>.
