

# **BOWEN UNIVERSITY IWO, NIGERIA**

## **Screening Exercise**

**Time Allowed: 1<sup>1/2</sup> Hours**

## INSTRUCTIONS

Please read the following instructions very carefully:

1. This **QUESTION BOOKLET** is a property of **BOWEN UNIVERSITY**.
2. Candidates are not allowed to take away or write on the **QUESTION BOOKLET**.
3. A separate sheet is provided for answering all questions. Candidates are to follow very strictly the **FORM INSTRUCTIONS** on the Answer Sheet.
4. Only one answer sheet is provided for each candidate.
5. Candidate must write his/her **FULL NAMES** (*Surname first followed by other names*), **FORM NUMBER, FIRST CHOICE COURSE** and the **DATE** on the answer sheet. (Please note that the Form Number is indicated on the acknowledgement card / on-line generated slip.)
6. Use an **HB Pencil** to shade your answer sheet. Ensure that you don't shade more than one answer per question to avoid nullification.
7. The use of calculators or any other electronic devices is **NOT ALLOWED**.
8. **English Language** and **General Knowledge** are compulsory for all candidates.
9. Candidates are to select **three subjects** relevant to their course of study as indicated below, **starting with compulsory subjects in the order in which they are listed**.
  - (a) **Accounting, Banking and Finance, Business Administration, Economics**
    - (i) **Compulsory:** Economics (02) and Mathematics (07)
    - (ii) **Any one of:** Commerce (03), Accounting (04), Government (05) Geography (06)
  - (b) **Medicine & Surgery, Anatomy, Physiology**
    - (i) **Compulsory:** Chemistry (09) and Biology (12)
    - (ii) **Any one of:** Physics (08) and Mathematics (07)
  - (c) **Sociology**
    - (i) **Compulsory:** Economics (02)
    - (ii) **Any two of:** Commerce (03) Government (05) or Geography (06)
  - (d) **Mass Communication, English, Communication Arts, Theatre Arts**
    - (i) **Compulsory:** Literature-in-English (01)
    - (ii) **Any two of:** Economics (02) Government (05) or Geography (06)
  - (e) **Political Science**
    - (i) **Compulsory:** Government (05)
    - (ii) **Any two of:** Economics (02) Geography (06) or Commerce (03)
  - (f) **Agriculture, Biological Sciences (Plant Biology, Microbiology, Zoology)**
    - (i) **Compulsory:** Chemistry (09) and Biology (12)
    - (ii) **Any one of:** Mathematics (07) or Physics (08)
  - (g) **Physics and Solar Energy, Computer Science & Information Technology; Mathematics, Statistics**
    - (i) **Compulsory:** Mathematics (07) Physics (08) and Chemistry (09)
  - (h) **Religious Studies**
    - (i) **Compulsory:** Christian Religious Studies (13)
    - (ii) **Any two of:** Literature-in-English (01) Economics (02) or Government (05)
  - (i) **Law**
    - (i) **Compulsory:** Literature-in-English (01)
    - (ii) **Any two of:** Economics (02) Government (05) Religious Studies (13)
  - (j) **Chemistry, Biochemistry, Industrial Chemistry**
    - (i) **Compulsory:** Mathematics (07) and Chemistry (09)
    - (ii) **Any one of:** Physics (08) or Biology (12)
  - (k) **History & Int. Studies, History, Music, Philosophy**
    - (i) **Any three of:** Literature-in-English (01) Economics (02) Government (05) or Geography (06)
10. The three subjects selected from the above combinations **should be written in columns 3 to 5 in the Answer Sheet**, starting with the compulsory subjects in order in which they are listed.
11. Candidates must read and abide by the above instructions and those found in the answer sheets.
12. All candidates must submit their **QUESTION BOOKLETS** and **ANSWER SHEETS** to the invigilator before leaving the examination hall.
13. **NOTE: Degree Programme Option Codes** are listed on page 2.

# BOWEN UNIVERSITY, IWO, OSUN STATE

## ACADEMIC DEGREE PROGRAMME OPTIONS AND THEIR CODES

  - (c) Linked-In
  - (d) Blackberry

## ENGLISH LANGUAGE

- a. Answer ALL questions
- b. Shade the letter in the circle corresponding to the correct answer in the answer sheet

**Read the following passage very carefully and answer the questions that follow.**

Sometimes a person's attempt to read fast and comprehend much may be faced with a number of problems. Some of these obstacles can be traced to the reader's own habits developed over the years. Others are, however, no fault of the reader but can be traced to natural causes.

First, consider a person whose level of natural intelligence is lamentably low. Intelligence is God-given and sometimes there is very little a person can do to improve his level of intelligence, he would normally be slow in learning to read and would read slowly and poorly.

Nervous disorders also affect one's reading ability. When a person has brain damage, he will have problems in his intellectual activities including his reading performance. Furthermore, children develop at different rates. Some develop at a slower rate than others.

If a child is pushed into a reading programme before he reaches the appropriate level of development, failure might be expected. However, such a child may still catch up when he reaches the right age.

While it has not been conclusively established there is evidence to suggest that eye defects may adversely affect the reading ability of both good and poor readers. A person with bad eyes suffers considerable strain when reading, and it is this strain that discourages liking for reading. This hinders constant practice and result in poor reading performance. Finally, children who have failed in learning to read and write often show signs of emotional problems such as anxiety, fears, truancy, restlessness, nail-biting etc.

1. According to the passage, obstacles to some people's attempt to reading fast and comprehending may be caused by ..... and .....
  - a) Readers own habits and natural causes
  - b) Not being taught how to read and understand
  - c) Too much hurry and damage brain
  - d) None of the above
2. All these factors can affect a person's reading efficiency except
  - a) Level of intelligence
  - b) Restlessness
  - c) Nervous disorder
  - d) Eye defect

3. What could happen if a child is prematurely pushed into a reading programme?
- a) He may improve in his reading capability
  - b) He will hate reading
  - c) He might not be able to read well
  - d) He copies from classmates
4. Give one reason why it would be unfair to blame a child for his low intelligence
- a) The child inherited low intelligence from the parents
  - b) Intelligence is given by God
  - c) A person with bad eyes assimilate whatever he reads
  - d) None of the above
5. "..... who have failed in learning to read and write" What is the grammatical name given to this expression?
- a) Noun clause
  - b) Noun phrase
  - c) Adjective clause
  - d) Adjective phrase

**Choose the appropriate option for each of the following**

6. All but one of the following is necessary in pre-lecture preparation
- a) Conducting surveys of course outlines and topics before hand
  - b) Making intelligent speculations about the lecture's sources
  - c) Arriving at lectures well ahead of the lecturer
  - d) A reading of some introductory surveys of the field if the topic is unfamiliar

7. The main goal of a lecture is to
- a) Give course outline to students
  - b) Impact knowledge to students
  - c) Trade information between lecturer and students
  - d) Introduce lecturers to students

**Pick the appropriate option for each of the following questions**

8. The request of the man was .....
- a) turned up
  - b) turned on
  - c) turned down
  - d) turn upside down
9. The sick girl ..... the food she ate
- a) threw down
  - b) threw out
  - c) threw up
  - d) threw away

**Pick out the correct spellings from the following**

10. (a) Across (b) Across  
(c) Accros (d) Acruss
11. (a) Occassion (b) Ocasion  
(c) Occasion (d) Ocassion

In each of questions 12 to 13, choose the option opposite in meaning to the word(s) or phrase underlined.

12. We almost came unstuck when we played the match without our top striker

- a) Achieved success
- b) Failed
- c) Faltered
- d) Lost confidence

13. Danlami inadvertently left the shop without paying for the goods he bought

- a) Secretly
- b) Reluctantly
- c) Quickly
- d) Intentionally

Choose the option which is nearest in meaning to the word(s) or phrase underlined.

14. When the lady heard the news, she flew into an ungovernable rage

- a) An extraordinary
- b) A noisy
- c) An unnecessary
- d) A violent

15. I would forgive Chidera because she made those remarks in the heat of the moment

- a) Ignorantly
- b) In a fit of anger
- c) In a state of sorrow
- d) Thoughtfully

From the words lettered A-D, choose the word that has the same vowel sound as

the one represented by the letters underlined.

16. Advantage

- (a) Page
- (b) Human
- (c) Women
- (d) Back

17. Leopard

- (a) Leaven
- (b) People
- (c) Led
- (d) Geology

From the words lettered A-D, choose the word that has the same consonant sound as the one represented by the letter(s) underlined

18. Beverage

- (a) Roof
- (b) Off
- (c) Buzz
- (d) of

19. Think

- (a) Conquer
- (b) Kick
- (c) Rake
- (d) Keen

Choose the option that best explains the meaning conveyed in the sentences.

20. My niece embarked on impulse buying in the supermarket

- a) My niece bought all the things she had planned to buy
- b) My niece bought some things she might need in the future
- c) My niece bought some things she did not plan to buy
- d) My niece was rather impulsive about some of the things she bought

  - a) paradox
  - b) irony
  - c) hyperbole
  - d) metonymy

*Read the poem below and answer the questions that follow:*

*“Woman, lay on my forehead your perfumed hands,  
hands softer than fur,  
Above, the swaying palm trees rustle in the high night breeze,  
Hardly at all, No lullaby even  
Listen to its song, listen to our dark blood beat, listen  
To the deep pulse of Africa beating in the midst of forgotten villages.*

*See the tired moon comes down to her bed on the slack sea  
The laughter grows weary the story-tellers even  
Are nodding their heads like a child on the back of its mother,  
The feet of the dancers grow heavy and heavy  
the voice of the answering choirs....*

*(Leopold Sedar Senghor)“Nuit de Sine”*

6. Stanza one is a general evocation of the .....
  - a) natural surroundings of deep calm and peace suitable for meditation.
  - b) crusade and perception of the poet
  - c) exploitation of sound patterns
  - d) mist of forgotten villages
7. “Nuit de Sine” is an evocation of the .....
  - a) ancestor, children and villages
  - b) mystery, beauty and fragrance of the African night
  - c) high profundities of sleep and night
  - d) womanhood and eternal cycle of life

8. Stanza two introduces human elements whose reactions underscore the .....
- a) power of god and his undying love for mankind
  - b) power of night and bring the world of man and nature closer
  - c) power of a woman and nature
  - d) the renewal of life and death
9. A sonnet has all EXCEPT one of the following
- a) strictly a fourteen line poem
  - b) it is divided into octave and sestet
  - c) it has a unique rhyming pattern
  - d) it is epic in nature
10. .... can be described as the literary art of diminishing or derogating a subject by making it ridiculous and evoking toward it, attitudes of amusement, contempt, scorn or indignation.
- a) Comedy
  - b) Fable
  - c) Satire
  - d) Pun
11. "Hail, Holy Light, Offspring of Heaven firstborn" is an example of
- a) personification
  - b) oxymoron
  - c) apostrophe
  - d) archetype
12. *Lord of the Flies* by William Golding is an
- a) African novel
  - b) allegorical novel
  - c) Romantic novel
  - d) Old English novel
13. A device by which the writer of a fiction or a drama presents scenes or incidents that occurred prior to the opening scene of the work is known as.....
- a) soliloquy
  - b) aside
  - c) flashback
  - d) regression
14. One of the following is not a part of this group
- a) *The Trials of Brother Jero* by Wole Soyinka
  - b) *Things Fall Apart* by Chinua Achebe
  - c) *The River Between* –Ngugi wa Thiong'o
  - d) *So Long a Letter* – Mariama Ba
15. A long narrative poem recounting heroic adventures is
- a) a heroic poem
  - b) an epic
  - c) metaphor
  - d) dirge
16. *The Canterbury Tales* is written by
- a) William Shakespeare
  - b) Christopher Marlowe
  - c) Geoffrey Chaucer
  - d) George Chaucer
17. A prose work of art which narrates events and experiences that have actually happened in life at one time or the other is known as.....
- a) fiction
  - b) short story
  - c) non-fiction
  - d) novella

18. A novel which places emphasis on characters, their motives, conditions and feelings, desires, emotions, experiences and their thinking pattern is described as a

- a) pastoral novel
- b) romantic novel
- c) sociological novel
- d) psychological novel

19. *The Gods are not to Blame* by Ola Rotimi is an adaptation of

- a) *Julius Caesar* by William Shakespeare
- b) *Oedipus Rex* by Sophocles
- c) *Waiting for Godot* by Samuel Beckett
- d) *The White Devil* by John Webster

20. Myths are usually distinguished from legends in that they have .....

- a) cosmic understanding
- b) less of historical basis
- c) anecdote
- d) racial background

## CHRISTIAN RELIGIOUS STUDIES (CODE: 013)

a. Answer ALL questions

b. Shade the letter in the circle corresponding to the correct answer in the answer sheet.

- |  |  |
|--|--|
| <p>1. The Christian Old Testament contains _____ books.</p> <p>A. 66<br/>B. 29<br/>C. 39<br/>D. 20<br/>E. 27</p> <p>2. The _____ Decalogue means _____.</p> <p>A. the 10 commandments<br/>B. the law of the Lord<br/>C. the Sharma<br/>D. the word of the Lord.</p> <p>3. The sign of the covenant that God made with Noah was _____.</p> <p>A. circumcision<br/>B. ten commandments<br/>C. to be father of many nations<br/>D. The rainbow in the clouds<br/>E. the beatitude.</p> <p>4. That Jesus walked on water indicates that _____.</p> <p>A. he has power over nature<br/>B. he is the son of God<br/>C. he has the key to the kingdom of God<br/>D. he is all powerful<br/>E. he is al knowing.</p> <p>6. Which of these letters of Paul does not belong to this group?</p> <p>A. I Timothy<br/>B. Romans<br/>C. Philemon<br/>D. Titus<br/>E. II Timothy</p> <p>7. According to Galatians the fruit of the Spirit is in _____ parts.</p> <p>A. 8<br/>B. 7<br/>C. 6<br/>D. 10<br/>E. 9</p> <p>8. The books of Matthew, Mark and Luke are known as _____.</p> <p>A. Pastoral epistle<br/>B. the Synoptic gospels<br/>C. Pauline epistles<br/>D. Apocryphal books<br/>E. Earlier books</p> |
|--|--|

9. \_\_\_\_\_ preached God's judgement on false teachers.  
A. Philemon  
B. James  
C. Jude  
D. Peter  
E. Titus
10. The following, except \_\_\_\_\_, are among the seven Churches John wrote letters to in the Book of Revelation.  
A. Ephesus  
B. Smyrna  
C. Pergamum  
D. Thyatira  
E. Lystra
11. The trial of Jesus took place before the following \_\_\_\_\_ persons, \_\_\_\_\_ except \_\_\_\_\_.  
A. Caiaphas, the high priest  
B. Herod, the king  
C. Pilate, the Roman official  
D. all of the above  
E. none of the above
12. Israelites shall observe the Passover in the month of \_\_\_\_\_ for it is the month the Lord their God brought them out of Egypt.  
A. Nissan  
B. Abib  
C. Casleu  
D. June  
E. none of the above
13. Ehud, a left-handed man, delivered Israel from \_\_\_\_\_.  
A. the Moabites  
B. the Canaanites  
C. the Phillistines  
D. Jabin king of Hazar  
E. the Midianites
14. Samson slew a thousand men of the philistines with \_\_\_\_\_.  
A. a catapult  
B. a fling  
C. a jar  
D. a fresh jawbone  
E. a Stone
15. On the fifth day of creation God created \_\_\_\_\_.  
A. plants and trees  
B. sea creatures and birds  
C. sun and moon  
D. day and night  
E. man
16. All the days of Methuselah were \_\_\_\_\_.  
A. nine-hundred and eighty -nine  
B. nine-hundred and seventy-nine  
C. nine-hundred and ninety-nine  
D. nine-hundred and sixty-nine  
E. nine-hundred and fifty nine
17. For killing Uriah the Hittite and taking his wife to be his wife, \_\_\_\_\_.  
A. all of David's son died  
B. David's wives died  
C. David's kingdom was divided  
D. the sword did not depart from David's house  
E. Solomon died
18. After Elijah prophesied that there shall not be dew nor rain in Israel during the reign of King Ahab, God made the following provisions for him, except \_\_\_\_\_.  
A. brook Cherith  
B. ravens  
C. a little cake  
D. bread and flesh  
E. dove

19. "But let justice roll down like waters,  
and righteousness like an ever-flowing stream."  
This is the main theme of the book of

\_\_\_\_\_.

- A. Isaiah
- B. Joel
- C. Hosea
- D. Jonah
- E. Amos

20. The love of God is conveyed in the book of

\_\_\_\_\_.

- A. Isaiah
- B. Joel
- C. Hosea
- D. Jonah
- E. Amos

### MATHEMATICS (CODE: 07)

a. Answer ALL questions

b. Shade the letter in the circle corresponding to the correct answer in the answer sheet.

1. Let  $\log y + 3 \log x = 3$ , then  $y$  is

- A.  $\left(\frac{10}{x}\right)^3$     B.  $\left(\frac{x}{10}\right)^3$     C.  $\left(\frac{x}{10}\right)^{-1/3}$   
D.  $\left(\frac{10}{x}\right)^{-3}$

2. Evaluate the integral  $\int_1^2 \left(x^2 + \frac{1}{x}\right) dx$

- A.  $\frac{8}{3} + \ln 2$     B.  $\frac{7}{3} + \ln 2$   
C.  $\frac{7}{3} - \ln 3$     D.  $\frac{8}{3}$

3. Simplify:  $1 + \frac{2}{3} - 3 \div \left(1 + \frac{2}{3} \text{ of } \frac{2}{7}\right)$

- A.  $\frac{-8}{33}$     B.  $\frac{21}{11}$     C.  $\frac{33}{21}$   
D.  $\frac{-21}{8}$

4. Evaluate  $x$  in base 3 if  $41_x - 22_x = 17_x$

- A. 11    B. 8    C. 12    D. 22

5. Let  $\alpha$  and  $\beta$  be the roots of the equation  $x^2 - 5x + 4 = 0$ . Find the value of  $\frac{1}{\alpha} - \frac{1}{\beta}$

- A.  $\frac{4}{3}$     B.  $\frac{-3}{4}$     C.  $\pm \frac{4}{3}$   
D.  $\pm \frac{3}{4}$

6. Express  $\frac{5y-12}{(y-2)(y-3)}$  in partial fractions

- A.  $\frac{2}{y-2} - \frac{3}{y-3}$     B.  $\frac{2}{y-2} + \frac{3}{y-3}$   
C.  $\frac{2}{y-3} - \frac{3}{y-2}$     D.  $\frac{5}{y-3} - \frac{4}{y-2}$

7. If  $\frac{dy}{dx} = 2x - 3$  and  $y = 3$  when  $x = 0$ , find  $y$  in terms of  $x$ .

- A.  $x^2 - 3x - 3$     B.  $2x^2 - 3x$   
C.  $x^2 - 3x + 3$     D.  $x^2 - 3x$

8. Find the non-zero positive value of  $x$  which satisfies the equation

$$\begin{vmatrix} x & 1 & 0 \\ 1 & x & 1 \\ 0 & 1 & x \end{vmatrix} = 0$$

- A. 2    B. 3    C.  $\sqrt{2}$     D. 1

9. If  $w$  is the mode and  $z$  is the median of the following set of numbers:

2.4, 2.1, 1.6, 2.6, 2.6, 3.7, 2.1, and 2.6,

then  $(3w, 2z)$  is

- A. (2.6, 2.5)    B. (2.1, 2.5)  
C. (7.8, 5.0)    D. (6.2, 5.0)

10. Some red balls were put into a basket containing 12 white balls and 16 blue balls. If the probability of picking a red ball from the basket is  $\frac{3}{7}$ , how many red balls were introduced?

- A. 13    B. 20    C. 12    D. 21

11. The second and fifth terms of a geometric progression are 6 and -48 respectively. The first term is

- A. -3    B. 3    C. 12    D. -12

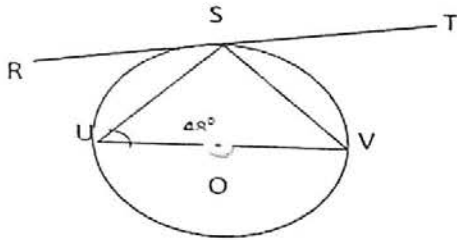

12. If  $4^{x+1} \times 8^{2x-1} = 16$ , find  $x$

- A. 1    B.  $9\frac{1}{2}$     C.  $\frac{5}{8}$     D. -1

13. A shopkeeper sold an item for ₦ 3,600 making a profit of 20%. Find the original price of the item

- A. ₦ 2,280    B. ₦ 3,000    C. ₦ 4,500  
D. ₦ 4,000

14. In the figure below, RST is a tangent to the circle centre O. It touches the circle at S. UV is the diameter and  $\angle SUV = 48^\circ$

Find  $\angle RSU$

- A.  $48^\circ$  B.  $138^\circ$  C.  $42^\circ$  D.  $90^\circ$
15. Find the standard deviation of the data given in the table below

Class	1-3	4-6	7-9
Frequency	5	8	5

- A. 5 B. 6 C.  $\frac{5}{3}$  D.  $\sqrt{5}$
16. If  $P$  varies inversely as  $V$  and  $V$  varies directly as  $R^2$ , find the relationship between  $P$  and  $R$  given that  $R = 7$  when  $P = 2$
- A.  $P = 98R^2$  B.  $PR^2 = 98$
- C.  $P^2R = 89$  D.  $P = \frac{R^2}{98}$

17. Let  $P = \{1, 2, u, v, w, x\}$ ,  $Q = \{2, 3, u, v, w, 5, 6, y\}$  and  $R = \{2, 3, 4, v, x, y\}$ . Determine  $(P/Q) \cap R$
- A.  $\emptyset$  B.  $\{x\}$  C.  $\{x, y\}$  D.  $\{1, x\}$

18. If  $\frac{{}^nP_3}{{}^nC_3} = 6$ , find the value of  $n$

A. 6 B. 3 C. 5 D. 1

19. The probability of an event  $P$  is  $\frac{3}{4}$ , while that of another event  $Q$  is  $\frac{1}{6}$ . If the probability of both  $P$  and  $Q$  is  $\frac{1}{12}$ , what is the probability of either  $P$  or  $Q$ ?

A.  $\frac{1}{96}$  B.  $\frac{1}{8}$  C.  $\frac{5}{6}$  D.  $\frac{11}{12}$

20. Find the remainder when  $x^3 - 3x^2 + 4x - 7$  is divided by  $x + 2$

A. -3 B. -7 C. -35

D.  $x^2 - 5x + 14$

## BIOLOGY (CODE: 012)

- a. Answer ALL questions  
b. Shade the letter in the circle corresponding to the correct answer in the answer sheet.

- |  |  |

Prevention of overcrowding by plants in the same habitat</li><li>d. All of the above</li><li>e. None of the above</li></ul> |
|--|--|

10. One significant difference between roots and stem is that
- Branch root originate in the pericycle while stem do not
  - Stems are below the ground while roots are always above the ground
  - Stems are positively geotropic while roots are negatively geotropic
  - Stems are sometimes used for storage while roots are never used
  - None of the above
11. Water and dissolved salts are carried through
- Veins
  - Midrib of leaf
  - Phloem
  - Cambium
  - Xylem
12. The fruit formed from a single flower having several free carpels is
- Multiple fruit
  - Simple fruit
  - Dehinscent fruit
  - Aggregate fruit
  - Indehinscent fruit
13. Which of the following best describes the levels of organization?
- Tissue → Cell → Organ → System
  - System → Organ → Tissue → Cell
  - Organ → Tissue → Cell → System
  - Cell → Tissue → Organ → System
  - Cell → Organ → Tissue → System
14. \_\_\_\_\_ carries oxygenated blood to the heart from the lungs.
- Jugular vein
  - Pulmonary artery
  - Pulmonary vein
  - Carotid artery
  - None of the above
15. \_\_\_\_\_ is absent in an animal cell.
- Cell membrane
  - Cell wall
  - Cytoplasm
  - Nucleus
  - Mitochondria
16. \_\_\_\_\_ carries eggs from the ovaries to the uterus is called
- Clitoris
  - Vulva
  - Vagina
  - Urethra
  - Fallopian tube
17. The food relation from grass → deer → tiger → decomposer is called
- Food web
  - Food chain
  - Trophic level
  - Energy flow
  - Food cycle
18. Organisms having the potential for interbreeding and producing fertile offspring are called
- Species
  - Order
  - Family
  - Genus

19. \_\_\_\_\_ deals with the study of relationships of living organisms with each other and with their non-living surrounding.
- a. Biology
  - b. Ecosystem
  - c. Genetics
  - d. Ecology
  - e. Physiology
20. \_\_\_\_\_ is a close association between two living organisms of different species that is beneficial to one but does not affect the other.
- a. Parasitism
  - b. Commensalism
  - c. Mutualism
  - d. Predation
  - e. None of the above

PHYSICS (CODE: 08)

a. Answer ALL questions

b. Shade the letter in the circle corresponding to the correct answer in the answer sheet.

1. Which of the following is a scalar quantity?  
A. Acceleration  
B. Mass  
C. Momentum  
D. Velocity
2. A motorist travelling at  $10\text{ms}^{-1}$  can bring his car to rest in a distance of 10m. If he had been travelling at  $30\text{ms}^{-1}$ , in what distance would he bring the car to rest using the same braking force?  
A. 17 m  
B. 30 m  
C. 52 m  
D. 90 m
3. What is meant by the term weight of an object?  
A. the gravitational field acting on the object  
B. the gravitational force acting on the object  
C. the mass of the object multiplied by gravity  
D. the object's mass multiplied by its acceleration
4. A projectile is fired from the surface of the Earth with a speed of  $200\text{ms}^{-1}$  at an angle of  $30^\circ$  above the horizontal. If the ground is level, what is the maximum height reached by the projectile?  
A. 5 m  
B. 10 m  
C. 500 m  
D. 1,000 m
5. An object of mass, 25kg moves at 5m/s round a circular path of radius, 5m.

Calculate the centripetal acceleration of the object.

- A.  $10\text{m/s}^2$   
B.  $5\text{m/s}^2$   
C.  $15\text{m/s}^2$   
D.  $20\text{m/s}^2$
6. A body of mass 4kg is acted upon by a constant force of 12N for 2s. Calculate the K.E gained by the body.  
A. 72J  
B. 73J  
C. 74J  
D. 75J
7. A bricklayer plastering a house falls from an uncompleted building of height 50m. Calculate the time he takes to reach the ground. ( $g = 10\text{m}^{-2}$ )  
A. 3.0s  
B. 3.12s  
C. 3.40s  
D. 3.16s
8. The velocity of a wave of amplitude 0.2 is 8m/s and its frequency is 4Hz. Calculate the phase difference between two points on the wave which are 0.5m apart.  
A.  $\frac{\pi}{2}$   
B.  $\frac{5\pi}{6}$   
C.  $\frac{\pi}{3}$   
D.  $\frac{\pi}{6}$
9. The period of a wave is 0.02s. Calculate the wave length if its speed is 330m/s.  
A. 5.0m B. 4.0m C. 6.6m D. 7.0m

10. The change in the direction of a wave front because of a change in the velocity of the wave in another medium is called.
- Refraction
  - Reflection
  - Diffraction
  - Dispersion.
11. A convex mirror of focal length 15cm produces an image on its axis 5cm away from the mirror. Determine the position of the object.
- 7.5cm
  - 7.2cm
  - 7.1cm
  - 7.0cm
12. If the volume of a fixed mass of hydrogen in a container is  $30\text{cm}^3$  at a pressure of 500mmHg, calculate the volume of the gas if the pressure is 600mmHg at constant temperature.
- $25\text{cm}^3$
  - $25\text{cm}^2$
  - $26\text{cm}^3$
  - $26\text{cm}^2$
13. How long does it takes a 750W heater operating at full rating to raise the temperature of 1kg of water from  $40^\circ\text{C}$  to  $70^\circ\text{C}$ .(specific heat capacity of water =  $4200\text{J/KgK}$ , neglecting heat losses).
- 178sec
  - 168sec
  - 158sec
  - 1458sec
14. Calculate the quantity of heat required to melt an ice of mass 0.7kg which has specific latent heat of fusion  $336\text{J/kg}$
- 236.7KJ
  - 234.3KJ
  - 235.2KJ
  - 237.7KJ
15. The temperature at which the water present in the air is just sufficient to saturate it is called the?
- Ice point
  - Boiling point
  - Steam point
  - Dew point
16. Which of the following instrument may be used to measure relative humidity?
- Hygrometer
  - Hydrometer
  - Barometer
  - Hypsometer
17. A gas which obeys Charles law exactly has a volume of  $283\text{cm}^3$  at  $10^\circ\text{C}$ . What is its volume at  $30^\circ\text{C}$
- $142\text{cm}^3$
  - $293\text{cm}^3$
  - $308\text{cm}^3$
  - $849\text{cm}^3$
18. The device used in storing charges is called
- Electricity
  - Capacitor
  - Cathodes
  - Electrodes
19. An electric heater uses 5.0A when connected across 110V device. Determine its resistance.
- $33\Omega$
  - $22\Omega$
  - $44\Omega$
  - $55\Omega$
20. In an X-ray tube the frequency of an emitted X-ray is  $1.6 \times 10^{12}\text{Hz}$ . Calculate the accelerating potential.
- 77.3V
  - 66.3V
  - 55.3V
  - 88.3V

## CHEMISTRY (CODE: 09)

- a. Answer ALL questions  
b. Shade the letter in the circle corresponding to the correct answer in the answer sheet.

1. A solid X when heated gives off a brown gas. If X is soluble in excess sodium hydroxide solution but insoluble in excess ammonium hydroxide solution, then X is

- (a) Sodium nitrate
- (b) Lead (II) nitrate
- (c) Barium sulphate
- (d) Sodium hydrogen carbonate
- (e) Sodium chloride

2. The least easily oxidized of the metals below is \_\_\_\_\_?

- (a) Sodium
- (b) Aluminum
- (c) Zinc
- (d) Calcium
- (e) None of the above

3. Alkanones are generally obtained by the oxidation of \_\_\_\_\_?

- (a) Secondary alkanols
- (b) Primary alkanols
- (c) Tertiary alkanols
- (d) All of the above
- (e) Alkanoic acid

4. A property of a colloidal dispersion which a solution does not have is \_\_\_\_\_?

- (a) Osmotic pressure
- (b) The tyndall effect
- (c) homogeneity
- (d) Surface polarity
- (e) None of these

5. Which of the following metals can be prepared in samples by the thermal decomposition of their trioxonitrate (V) salts?

- (a) Silver and mercury
- (b) Copper and mercury
- (c) Mercury and magnesium

- (d) Silver and copper
- (e) Magnesium and copper.

6. The air pollutant unknown in nature is \_\_\_\_\_?

- (a) HCHO
- (b) CO
- (c) NO
- (d) DDT
- (e) SO<sub>2</sub>

7. A mixture of iodine and sulphur crystals can be separated by treatment with \_\_\_\_\_?

- (a) Water to filter off sulphur
- (b) Ethanoic acid to filter off sulphur
- (c) Methanol to filter off iodine
- (d) Carbon (IV) sulphide to filter off iodine
- (e) potassium permanganate to decolorize yellow sulphur

8. A common characteristics of copper and silver in their usage as coinage metals is that they \_\_\_\_\_?

- (a) Are not easily oxidized
- (b) Are not easily reduced
- (c) Hence high metallic luster
- (d) Are easily oxidized
- (e) Are easily reduced

9. When carbon (IV) oxide is bubbled into lime water, a white precipitate is formed. If the passage of the gas is continued, the precipitate disappears. The reason for this is \_\_\_\_\_?

- (a) The solution has become saturated and solid carbon (IV) oxide has been deposited
- (b) Concentration of the solution has occurred with the deposition of calcium hydrogen carbonate

- (c) Calcium carbonate is formed which on reaction with further carbon (IV) oxide forms soluble calcium hydrogen carbonate  
 (d) Calcium hydrogen carbonate is precipitated and then dissolves  
 (e) Calcium carbonate is formed which gradually dissolves

10. Which of the following water samples will have the highest titre value when titrated for the  $\text{Ca}^{2+}$  ion using soap solution?

- (a) Rain water stored in a glass jar for two years  
 (b) Permanently hard water after boiling  
 (c) Temporarily hard water after boiling  
 (d) Permanently hard water passed through permutit  
 (e) None of the above

11. A quantity of electricity liberates 3.6g of silver from its salt. What mass of Aluminum will be liberated from its salt by the same quantity of electricity [Al=27, Ag=108]

- (a) 0.3g  
 (b) 2.7g  
 (c) 1.2g  
 (d) 0.9g  
 (e) 7.2g

12. Tetraoxosulphate (VI) acid is prepared using the chemical reaction  $\text{SO}_{3(g)} + \text{H}_2\text{O(l)} \rightarrow \text{H}_2\text{SO}_{4(g)}$ . Given the heats of formation for  $\text{SO}_{3(g)}$ ,  $\text{H}_2\text{O(l)}$  and  $\text{H}_2\text{SO}_4(\text{aq})$  as  $-395\text{kJmol}^{-1}$ ,  $-286\text{kJmol}^{-1}$  and  $-841\text{kJmol}^{-1}$  respectively, the enthalpy change accompanying this reaction is \_\_\_\_\_?

- (a) +1032kj  
 (b) -1032kj  
 (c) +130kj  
 (d) -130kj  
 (e) -1492kj

13. The times taken for iodine to be liberated in the reaction between sodium thiosulphate and hydrochloric acid at various temperature are as shown below:

Temp ( $^{\circ}\text{C}$ )	25	35	45	55
Time(s)	72	36	18	09

These results suggest that \_\_\_\_\_

- (a) The higher the temperature the lower the time iodine disappeared  
 (b) Time taken for iodine to appear does not depend on temperature  
 (c) For  $10^{\circ}$  rise in temperature, rate of reaction is tripled  
 (d) For  $10^{\circ}$  rise in temperature, rate of reaction is double  
 (e) For a  $10^{\circ}$  rise in temperature, rate of reaction is halved

14. Complete oxidation of propan-1-ol gives \_\_\_\_\_?

- (a) Propanoic acid  
 (b) Propan-1-one  
 (c) Propan-2-al  
 (d) Propanal  
 (e) Propane

15. The formula of the compound formed in a reaction between a trivalent metal M and a Pentavalent non metal X is \_\_\_\_\_?

- (a)  $\text{M}_3\text{X}_5$   
 (b) MX  
 (c)  $\text{M}_5\text{X}_3$   
 (d)  $\text{M}_3\text{X}_3$   
 (e)  $\text{MX}_2$

16. Which of the following relationships between the pressure P, the volume V and the temperature T, represents an ideal gas behavior?

- (a)  $PT \propto V$   
 (b)  $P \propto VT$   
 (c)  $P \propto T/V$   
 (d)  $PV \propto VT$   
 (e)  $P \propto V/T$

17. 2.5g of a hydrated barium salt gave on heating, 2.3g of the anhydrous salt. Given that the relative molecular mass of the anhydrous salt is 208, the number of molecules of water of crystallization of the barium salt is \_\_\_\_\_?

- (a) 5 (b) 2 (c) 7 (d) 10 (e) 1

18. Manganese (IV) oxide reacts with concentrated hydrochloride acid according to the equation:  $\text{MnO}_2 + \text{XHCl} \longrightarrow \text{MnCl}_2 + \text{Cl}_2 + \text{yH}_2\text{O}$  X and y are \_\_\_\_\_

- (a) 2 and 4 respectively
- (b) 3 and 2 respectively
- (c) 4 and 1 respectively
- (d) 4 and 2 respectively
- (e) 2 and 5 respectively

19.  ${}^3_1\text{R}$ ,  ${}^{19}_9\text{U}$ ,  ${}^{24}_{12}\text{S}$ ,  ${}^{20}_{10}\text{T}$ ,  ${}^{18}_9\text{Y}$ ,

Which of the following statements is NOT true of the elements

- (a) R, U, S, T, Y?
- (b) R, U, S and T are metals
- (c) T is an Isotope of hydrogen
- (d) S will react with oxygen to form SO
- (e) U and Y are Isotopes

20. Stainless steel is an alloy of \_\_\_\_\_

- (a) Carbon and iron only
- (b) Carbon, iron and Chromium
- (c) Carbon, iron and Lead
- (d) Carbon, iron and Silver
- (e) Carbon, iron and Copper

## ACCOUNTING (CODE: 04)

- a. Answer ALL questions  
b. Shade the letter in the circle corresponding to the correct answer in the answer sheet.

- |   |   |
|---|---|
| <p>1. The Accounting concept that states the ownership of the Company should be dealt with separately from the Company herself is .....</p> <p>a. Going concern concept<br/>b. Entity concept<br/>c. Accrual concept<br/>d. Matching concept</p> <p>2. Where a trader does not maintain double entry records but has a record of receipts and payments, he is said to be operating a system of .....</p> <p>a. Incomplete records<br/>b. Single entry<br/>c. Partial records<br/>d. Significant records</p> <p>3. One of the following is NOT a feature of a non-current asset?</p> <p>a. It can be seen and touched<br/>b. It has long life span<br/>c. Acquired for use in the operation of a business<br/>d. Intended for resale to customer</p> <p>4. The extra consideration for the guarantee to collect all trade debts is the</p> <p>a. Asset + Liabilities = Capital<br/>c. Liabilities + Asset = - Capital<br/>d. Capital - Asset + 0 = - Liabilities</p> <p>9. The following are 2<sup>nd</sup> level users of accounting information except<br/>a. Shareholders<br/>b. Banks / Insurance<br/>c. Trade Creditors<br/>d. Management</p> <p>10. A petty Cashier's reimbursable expenses at the end of the month is ₦20,000. He has incurred a total expenditure of ₦18,250. How much will be reimbursed?<br/>a. 19,250    b. 18,250    c. -1,750<br/>d. -20,000</p> |
|---|---|

11. The Accounting Concept which states that 'every financial expenditure should be Classified in accordance with the income it generates is...'
- Income concept
  - Periodicity concept
  - Matching concept
  - Realization concept.

Use the following information to answer questions 12-13

	N
Turnover	100,000
Gross Profit	20,000
General Expenses	12,000
Opening Stock	10,000
Closing Stock	7,000

12. What is the value of purchases?
- N38,000
  - N60,000
  - N77,000
  - N50,000
13. What is the value of Net profit?
- N8,000
  - N10,000
  - N20,000
  - N6,000
14. Which of the following will be recognized in the debtors list at the end of the financial Year?
- Debt owing
  - Salaries and Wages
  - Miscellaneous
  - Stock
15. A trial balance can be thrown off balance with these errors except;
- Error of Principle
  - Error of Casting
  - Complete Omission of ledger balance
  - Transpositional error

16. Cash withdrawal from the Bank is
- Debit transaction to Cash account
  - Credit transaction to Cash account
  - Debit transaction to Bank account
  - Credit transaction to the ledger account
17. Mercy Enterprises is into a new business and has just obtained a loan from the bank to Start the business, what is this fund called?
- Equity capital
  - Pneuiel capital
  - Set-Up capital
  - Loan capital
18. A bank statement needs to be reconciled with the cash book because of the following Reasons except ;
- Vat
  - Management fee
  - Commission on Internet
  - Commission on Turnover (Cot)
19. A loan from the bank for which your personal home/house is used as a collateral is called;
- Mortgage debenture
  - Debenture Stock
  - Debenture Loan
  - Mortgage Loan
20. Stores Issued Voucher (SIV) is issued by the Store keeper for;
- Goods received to store
  - Goods returned from store
  - Goods given out of the store
  - Goods taken back to the store

## COMMERCE (CODE: 03)

- a. Answer ALL questions  
b. Shade the letter in the circle corresponding to the correct answer in the answer sheet.

- |   |   |
|---|---|
| 1. Commerce is a concept or discipline which describes:                         | (d) Acquire knowledge to gain international reputation and fame   |
| (a) Buying and selling of goods and services                                    | 5. The business environment of an organization involves:  |
| (b) The utilisation of resources in the business environment efficiently        | (a) The factory site where it is located for productive activities  |
| (c) The production, distribution and consumption of goods and services          | (b) The operational decision-making process of the political, economic, social technological dimensions etc |
| (d) The transformation of raw materials into finished products                  | (c) The selling point involving the operations of wholesalers and retailers                                 |
| 2. The oldest form of business organization is coined as:                       | (d) The international dimension of the business organization for profitability                              |
| (a) The joint stock company   | 6. The money market is made up of:  |
| (b) Co-operative ventures   | (a) The Security and Exchange Commission (SEC)  |
| (c) The sole proprietorship   | (b) The Nigerian Stock Exchange (NSE)   |
| (d) The partnership   | (c) The Central Bank of Nigeria (CBN)   |
| 3. An effective sales promotion captures  | (d) The Commercial Banks  |
| (a) Advertisement on radio through jingles                                      | 7. The mainstay of the Nigerian economy is basically dependent on:  |
| (b) Offering free samples for use by prospective buyers                         | (a) Rapid industrial development to grow the economy  |
| (c) Distribution of printed materials as an incentive to buyers                 | (b) The transformation of health and educational sectors  |
| (d) Advertisement through television and print media                            | (c) Improved and sustained agricultural revolution  |
| 4. The study of the discipline of commerce prepares students to:                | (d) Improved and enhanced service industry through the energy sector  |
| (a) Become renowned academicians that can contribute to knowledge               |   |
| (b) Learn the rudiments and benefits of the discipline to serve humanity better |   |
| (c) Become prolific writers of commercial books for profit maximization         |   |

8. A free market economic system is conceptualized by:
- (a) Invisible market forces operating as the driving force of the economy
  - (b) The command system of control by groups of individuals
  - (c) Traditional system from one generation to another
  - (d) The control is exercised through mixed market economic operations
9. A market is defined conceptionally as:
- (a) A system/arrangement bringing buyers and sellers together
  - (b) An arrangement where goods and services are sold in a place
  - (c) A system where prices are dictated by sellers only
  - (d) A situation where perfect competition only exists
10. Time value of money implies:
- (a) The liquidity preference for money at a point in time
  - (b) The opportunity cost to invest in profitable ventures at a particular time
  - (c) The investment decisions taken from time to time
  - (d) The concepts of the present value of money
11. The acronym 'PEST' describes a picture of a business environment involving:
- (a) The level of production attained in a business organization
  - (b) The sales revenue profile of a business organisation
  - (c) Common diseases that devour an efficient-business organisation
  - (d) The major technical dimensions of the business environment of an organisation
12. Which of these statements is not a function of the Central Bank of Nigeria?
- (a) Issuance of a legal tender
  - (b) Management of the national debt
  - (c) Maintenance of the external value of the currency
  - (d) The control of the interest rate
13. One of the determinants of credit creation is known as:
- (a) Cash Reservation Ratio
  - (b) The Issuing House Service
  - (c) Granting of Credit Facilities
  - (d) The transfer of money to other banks
14. The Security and Exchange Commission does not perform one of these functions
- (a) The determination of the amount of time securities are sold to the public
  - (b) The registration of Stock Exchange branches and registrars nationwide
  - (c) The training of brokers and jobbers for professional job opportunities
  - (d) The promotion of integrity in the entire security market nationwide

- |  |  |
|--|--|
| <p>15. The determination of the price of a commodity in the market depends on:</p> <ul style="list-style-type: none"><li>(a) The number of buyers and sellers in the market.</li><li>(b) The number of the sellers of the product in the market</li><li>(c) The nature and the degree of competition in the market</li><li>(d) All of the above</li></ul> <p>16. Corporate social responsibility of a business venture requires:</p> <ul style="list-style-type: none"><li>(a) Extensive consultations while planning to buy cars for employees</li><li>(b) Encouraging workers to make contributions for ceremonial purposes</li><li>(c) Addressing issues relating to societal problems and misunderstanding</li><li>(d) Setting up social welfare centres to address issues on welfare package</li></ul> <p>17. The short-comings of trade by barter do not include one of the following statements</p> <ul style="list-style-type: none"><li>(a) Divisibility of certain goods</li><li>(b) Transportation of bulky goods</li><li>(c) Externalities arising from barter</li><li>(d) Durability problem</li></ul> <p>18. Money is an effective store of value because</p> <ul style="list-style-type: none"><li>(a) Individuals can keep their surplus output of goods in money</li><li>(b) It can be kept as cheaply as possible relative to physical goods</li><li>(c) It does not need further conversion before being used</li><li>(d) It cannot be burnt by fire if properly kept</li></ul> | <p>19. The problems of calculating the national income of a country include:</p> <ul style="list-style-type: none"><li>(a) The unresolved issue of transfer payments</li><li>(b) The double counting issue relating to the production of goods and services</li><li>(c) The timing of computation of the statistical data</li><li>(d) All of the above</li></ul> <p>20. Which of the following statement does not enhance gains from international trade?</p> <ul style="list-style-type: none"><li>(a) The tendency to increase the total world output of goods and services</li><li>(b) There will be substantial increase in people's welfare and improved living standard</li><li>(c) It is only to promote the growth of domestic trade to strengthen the value of local currency</li><li>(d) It is a source of increasing government revenue through imposition of tariffs</li></ul> |
|--|--|

## ECONOMICS (CODE: 02)

- a. Answer ALL questions
- b. Shade the letter in the circle corresponding to the correct answer in the answer sheet.

### SECTION A

Indicate whether each of the statements below is TRUE or FALSE BY SHADING **OPTION A** for TRUE and **OPTION B** for FALSE

1. Economics exists because human needs are greater than available material resources.
2. Change in demand refers to a movement along the same demand curve because of a decrease or increase in the price of the good in question.
3. A normal good is one whose quantity demanded varies inversely with income.
4. An equilibrium level of production is characterized by lack of a tendency for a change.
5. Utility is not usefulness but the satisfaction derived by a consumer who purchases a commodity simply because the  $MUX = Px$ .
6. A decline in price leaves the total revenue unchanged when the coefficient of price elasticity of demand is one.

7. The budget line shows different combinations of two goods that the consumer can afford to buy, given his income and market prices, whereas an indifference curve joins together all points on the curve representing different combinations of two goods yielding equal utility to the consumer.
8. The supply curve becomes more elastic, the shorter the time period under consideration.

### SECTION B

Identify and insert the letter corresponding to the correct answer in the answer sheet.

9. The most important factors of production consist of the following:
  - (a) labour, land and capital
  - (b) water, earth and knowledge
  - (c) money, stocks and bonds
  - (d) management, finance and marketing enterprise

10. Which of the following issues is related to microeconomics?
- (a) oil prices on car production and distribution
  - (b) money on inflation and economic growth potentials
  - (c) Technology on economic growth
  - (d) The deficit on saving accumulation
11. The law of demand states that, an increase in the price of a good:
- (a) increases the supply of that good
  - (b) decreases the quantity demanded for that good
  - (c) likely increases the quantity supplied of that good
  - (d) causes a shift in demand
12. At price of ₦45.00, 20 units of mango were purchased but when the price rose to ₦50.00 per unit, 16 units were bought. The price elasticity of demand is
- (a) 1.5
  - (b) 1.6
  - (c) 1.75
  - (d) 1.8
13. Double coincidence of wants requires a condition which must be satisfied
- (a) Simultaneously through demand for goods and services between two people
  - (b) A person has to look for another to exchange goods and services with
  - (c) Two people should meet to discuss the mode of exchange
  - (d) Two people should exchange equal amounts of goods and services
14. If  $M_t = kY$  is the equation for transactional demand for money by a household,  $K = 0.20$  while the family's income is ₦10,000.00 per week. Determine the level of the demand for money for the family's weekly transactions
- (a) ₦500
  - (b) ₦1000
  - (c) ₦2000
  - (d) ₦3000
15. The per capita income concept captures:
- (a) The measurement of the amount of capital of a country
  - (b) The measurement of the income of the rich and wealthy in a country
  - (c) The method of the valuation of all the capital projects in a country
  - (d) The measurement of the income per head of the total population at a time
16. The structure of a market sums up:
- (a) The number of sellers and buyers in the market
  - (b) The system through which buyers and sellers bargain for an acceptable price
  - (c) The determination of the actual price of a commodity
  - (d) The nature and the degree of competition

- |  |   |
|--|---|
| <p>17. Which of the following factors does not contribute to increased government expenditure?</p> <ul style="list-style-type: none"><li>(a) Expansion of state activities because of increasing demand</li><li>(b) Internal security challenges</li><li>(c) Increasing population with increasing urban-rural migration problems</li><li>(d) In-depth study of the functions of the Central Bank of Nigeria</li></ul> <p>18. The whole essence of the progressive tax system is to:</p> <ul style="list-style-type: none"><li>(a) Take a higher percentage of income as an individual's income rises</li><li>(b) Take a higher percentage of income only from the rich people</li><li>(c) Focus only the poor people to pay less</li><li>(d) Make the tax regressive for the rich who should pay more</li></ul> | <p>19. Inflation is a concept which is defined as:</p> <ul style="list-style-type: none"><li>(a) A persistent rise in the price level generally in an economy</li><li>(b) A persistent rise in consumer goods prices only</li><li>(c) Hyper inflation with its galloping indices</li><li>(d) Creeping inflation moving slowly and in a cyclical form at another time.</li></ul> <p>20. The principles of Federal Government's Revenue Allocation policy do not cover:</p> <ul style="list-style-type: none"><li>(a) Derivation criterion</li><li>(b) Equality of states</li><li>(c) Population</li><li>(d) Geographical spread.</li></ul> |
|--|---|

## GEOGRAPHY (CODE: 06)

- a. Answer ALL questions  
b. Shade the letter in the circle corresponding to the correct answer in the answer sheet.

- |  |  |
|--|--|
| <p>1. Iron deposit is a natural resources when it occurs</p> <ul style="list-style-type: none"><li>a. In high concentrations</li><li>b. With few impurities</li><li>c. In economic quantities</li><li>d. In sedimentary formation</li></ul> <p>2. The fundamental role played by the decomposers in the functioning of the eco-system is the</p> <ul style="list-style-type: none"><li>a. Disposal of plant and animal waste products</li><li>b. Release of energy and nutrients locked up in organic litter</li><li>c. Precipitation of organic and mineral elements from the soil</li><li>d. Cycling of water and chemical elements</li></ul> <p>3. A solution to wind erosion in semi-arid areas is the establishment of</p> <ul style="list-style-type: none"><li>a. Crop strips</li><li>b. Terrace bounds</li><li>c. Shelter belts</li><li>d. Diversion channels</li></ul> <p>4. The most common tree in the desert is the</p> <ul style="list-style-type: none"><li>a. Date</li><li>b. Acacia</li><li>c. Pine</li><li>d. Larch</li></ul> | <p>5. 10. Ocean currents affects the coast they wash when
- Prevailing winds are offshore
  - Prevailing winds are onshore
  - There are no prevailing winds
  - The ocean floods the shore
11. What is the climate of a station with an annual rainfall of 2650 mm spread fairly all year round and a mean annual temperature of 27 ° C?
- Tropical wet and dry
  - Tropical monsoon
  - Tropical humid
  - Mediterranean woodland
12. The in product of materials that have negative impact on the ecosystem is known as
- Pollution
  - Combustion
  - Transpiration
  - Evaporation
13. An example of a climate hazard is
- Volcanic eruption
  - Earthquake
  - Hurricane
  - Coastal erosion
14. Fertile plains are usually characterised by a pattern of settlement referred to as
- Nucleated and concentric
  - Nucleated and elongated
  - Dispersed
  - Nodal
15. The standard railway gauge is most common in
- North America and Europe
  - Europe and Africa de is
  - Africa and North America
  - South America and Africa
16. Petroleum is extracted in Nigeria by
- Drilling
  - Refining
  - Mining
  - Dredging
17. Organic sedimentary rocks are formed from the
- Solution of substance
  - Result of pressure from the underlying rocks
  - Remains of living organism
  - Vegetative matters
18. Which of the following is an agent of denudation
- Insulation
  - Wind
  - Energy
  - Gravity
19. Which of the following rocks is characterised by layer formation and strata?
- Metamorphic
  - Volcanic
  - Sedimentary
  - Igneous
20. The term used to describe the vegetation type of the Amazon Basin is
- Pampas
  - Coniferous
  - Selvas
  - Vale
